Herb Charts

The Cottage Herb Garden's Herb Chart suggests herbs to be used in soups and salads as well as in various fish, egg, cheese, meat and vegetable dishes. The chart has been very popular and is particularly helpful to the cook who may be something of a beginner in cooking with herbs. It measures approximately 14" by 17" and is suitable for framing although we sell them only unframed. At the Cottage Herb Shop the chart is .35. Ordered by mail it is .50 which includes postage and a mailing tube. Five or more charts may be packed flat and sell for .35 each plus postage on the package and the 25c minimum packing charge.
